

ORDINANCE NUMBER 2015- 26

AN ORDINANCE OF THE BOARD OF SUPERVISORS OF PIMA COUNTY ARIZONA AMENDING THE PIMA COUNTY CODE CHAPTER 3.06, BONDING DISCLOSURE, ACCOUNTABILITY AND IMPLEMENTATION.

BE IT ORDAINED BY THE BOARD OF SUPERVISORS OF PIMA COUNTY, ARIZONA:

Chapter 3.06 of the Pima County Code is hereby amended to read as follows:

Chapter 3.06 BONDING DISCLOSURE, ACCOUNTABILITY AND IMPLEMENTATION

3.06.010 Intent.

The board of supervisors is authorized by Arizona Revised Statutes § 35-452 to call special elections for the purpose of seeking voter authorization to incur bonded indebtedness. The board of supervisors desires to provide voters with complete information on projects, along with their estimated costs, that will be constructed from proceeds of bonded indebtedness, as well as provide voters, to the maximum extent practicable, firm assurances that these projects will be constructed within the estimated costs and time tables established by the board of supervisors. Because it is not practicable to list on a ballot question all of the projects and estimated costs that would be constructed from the sale of authorized bonded indebtedness, the board of supervisors establishes this chapter setting forth requirements for presenting general obligation and revenue bond packages to the electorate for approval and for monitoring utilization of the proceeds from authorized bonds.

3.06.020 Bond implementation plan.

Prior to the start of early voting for a special election called by the board of supervisors pursuant to A.R.S. § 35-452, the board of supervisors shall adopt by ordinance a "bond implementation plan," which shall be adopted for each bond election and question ordered by the board of supervisors pursuant to A.R.S. § 35-452. The title of the ordinance shall contain the date of the special bond election. After adoption, the ordinance shall govern the development or construction of all listed projects, including the approximate project cost and the proposed construction schedule, unless the ordinance is amended pursuant to Section 3.06.070. The ordinance shall contain the following information:

- A. A complete list of all projects to be constructed or acquired by proceeds from the sale of authorized bonds. The project list shall identify each project by name and location and provide a short narrative project description.
 1. For capital construction projects, the following information shall also be provided for each project:
 - a. A project scope of work containing a description of the facility to be constructed, including the size or capacity and whether construction is for a new facility or an expansion, rehabilitation or reconstruction of an existing facility, and whether the project is phased and if so which phases are being funded.
 - b. The purpose and specific benefits to be achieved by construction of the project.
 - c. A project schedule by major task (i.e. land acquisition, planning/design, construction), as well as the implementation periods projected for starting and completing the project. Implementation periods are blocks of two fiscal years each.

- d. The agency responsible for future operations and maintenance of the facility, and the estimated future operating and maintenance costs and source of funding for those costs if the implementing agency is a governmental entity.

- 2. For each land acquisition project related to open space, trails or historic/cultural preservation, the following information shall be provided:
 - a. An estimate of the number of acres to be acquired.
 - b. The desirable location of the property by section, township, and range, assessor parcel number, or reference to a map that is readily accessible to the public.
 - c. The benefits to be achieved by the acquisition.
 - d. The estimated future management and security costs, and identification of the management agency if other than the county.
- B. The total estimated cost of each project or acquisition, total estimated costs by major task, a discussion of how estimated costs were derived, and analysis of the potential for actual costs to increase or decrease from estimated costs.
- C. The total estimated amount and source (federal or state aid, local governments, other county revenues, private sources) of any other revenues that may be obtained for the project or revenues that are required as cost sharing from other governmental entities or private parties, including an assessment of the certainty or uncertainty that other sources will be secured and options that would be available if the other sources are not secured.
- D. A detailed strategy for managing the sale of bonds, including discussion of the factors upon which the county will base decisions on the timing, size, and terms of bond sales.
- E. For general obligation bonds, discussion of commitments to manage the sale of bonds within limits on secondary property tax rates and analysis of how approval and sale of general obligation bonds could impact actual property taxes paid for debt service.
- F. For revenue bonds, a discussion of sources of revenues that will be used to service bond debt and whether fees will be raised, and by how much, if revenue bonds are approved and sold.

3.06.030 Advance publication of bond implementation plan.

A bond implementation plan adopted pursuant to this chapter shall be published at least once in a newspaper of general circulation in the county prior to the start of early voting for the special bond election. The publication shall set forth the ordinance containing the bond implementation plan adopted by the board of supervisors. Upon adoption, the board of supervisors shall also publish the bond implementation plan on the county's web site prior to the start of early voting for the special bond election.

 - 4. A delay in a project construction or implementation schedule of twelve months or more.

5. A delay in the scheduled years of sale of bonds of twenty-four months or more caused by changes in municipal bond market conditions or county financial conditions and necessary to maintain commitments to capping the secondary property tax rate for debt service.
 6. Any project that is not constructed.
 7. Any project that is added to those to be constructed.
 8. Any increase or decrease in the project scope that alters the disclosed project benefits.

- C. Cost estimates may vary, up or down, as a project proceeds through planning, design, procurement, contract award, and construction, or through appraisals and negotiations for conservation acquisitions. Variations in cost estimates do not constitute "substantial modifications." "Substantial modifications" relating only to cash amounts may occur pursuant to official action by the board of supervisors, in open session, that establish actual costs through awards of construction contracts, contract amendments or change orders, or approval of a contract for acquisition. A bond implementation plan shall be integrated into a five year capital improvement plan to be adopted at the time the annual budget of the county is adopted. The county five-year capital improvement program shall be reported to the Metropolitan Planning Organization for all necessary coordination and integration into a regional capital plan. Any project contained within a bond implementation plan that is being implemented by a political subdivision other than the county, or by a nonprofit community partner (each an "agency"), shall conform with the requirements of this chapter. Specific program or project oversight for the purposes of conforming with this chapter shall remain with the county.

or equipped by another agency using county general obligation bonds to fund a project in whole or part shall be funded by the county only pursuant to a binding contract or intergovernmental agreement executed between Pima County and the implementing agency. Each such project shall be authorized and implemented with a separate agreement. Neither this Code, nor the inclusion of a project in the bond implementation plan gives an agency any contractual rights with respect to a project until a binding agreement is duly approved and executed. The agreement shall authorize the implementing agency to design, construct, or equip the project, subject to compliance with the terms and mutual responsibilities of the parties agreed upon in the agreement.  3. That the implementing agency and the County will conduct regular performance audits to determine if facilities built, operated and maintained by the implementing agency are being maintained in good working order and are being used for the appropriate purposes; and that the County may suspend the allocation of County bond funding for other not-yet-built projects if the performance audit results in a finding of unsatisfactory and facilities are not returned to good working order within 120 days.
 4. That the implementing agency shall not charge a fee for use of the constructed improvement that is more than a fee charged by the county for a similar purpose.
 5. That the implementing agency agrees to insure the improvements constructed with county bond funds and will replace same them if they are damaged or destroyed.
 6. That the implementing agency agrees to make the improvements available to all residents of Pima County without restriction or preference to jurisdiction of residence.
 7. That the implementing agency agrees to comply with all provisions of Chapter 3.06 (Bonding Disclosure, Accountability, and Implementation) of the Pima County Code and will provide all reports to the county in a format and schedule agreed upon by the parties.
 8. That the county will only transfer county general obligation bond proceeds to the implementing agency upon request from the implementing agency, with full documentation.
 9. That the implementing agency agrees to a provision requiring compliance with federal arbitrage regulations.

 11. The maximum amount of county bond funds allocated to the specific project, and what entity will own improvements as they are constructed.
 12. That the implementing agency will pay for any and all project costs in excess of the allocated county bond funds.
