Revisions to Merit System Rules and Personnel Policies

Staff requests approval of the following revisions:

A. Merit System Rule 13.3.A

As a result of a Pima County settlement before the State Attorney General's Office, Pima County was advised to amend its discrimination policy to include, among other things, discrimination based on the results of a genetic test received by the County. Pima County currently does not perform genetic testing and the state is aware of this. Nevertheless, State law does include this protection and it must, therefore, be noted in our policy, even if we do not perform such tests.

B. Personnel Policy 7-113.C.10

Revised to correct the fact that the holiday benefit is prorated based on the number of hours paid in the same pay period for an employee who works modified duty and is also compensated by workers' compensation benefits.

Motion carried to approve (5-0)

C. Personnel Policy 7-117.H. and O.1 and 2

Allowing departments to increase the salary of an employee for promotions and reappointments up to ten percent (10%) in two and one-half percent (2.5%) has caused internal pay inequities and inconsistencies in compensation. To ensure that the increase will not negatively impact others, this proposed change in policy will require departments to justify promotional and reappointment pay and receive County Administrator's approval when offering an increase in salary greater than five percent (5%) of the employee's current pay, except for exemptions already stated in this policy.
