ASBESTOS NESHAP NOTIFICATION & ACTIVITY PERMIT APPLICABILITY CHECKLIST

The Pima County Department of Environmental Quality (PDEQ) has delegated authority from the U.S. EPA to enforce the Asbestos NESHAP within Pima County, excluding Tribal Lands. The Asbestos NESHAP requires submittal of Notification to PDEQ of subject Demolition and Renovation activities. Additionally, the Pima County Code requires that an Asbestos NESHAP Activity Permit be obtained from PDEQ for such subject Demolition and Renovation activities.

Please review PDEQ's *Understanding the Asbestos NESHAP* for assistance in answering the following questions. The answers to these questions will determine if a submitting a Notification and obtaining an Asbestos NESHAP Activity Permit are required.

- Is the facility regulated by the Asbestos NESHAP?
- Is the activity a demolition?
- Does the renovation activity include stripping or removal of RACM from a facility in amounts that meet or exceed the thresholds of:
 - 160 square feet on facility components, or;
 - 260 linear feet on pipes, or;
 - 35 cubic feet off facility components where the length or area could not be measured previously?

If the facility is *not* regulated by the Asbestos NESHAP, then a Notification and Asbestos NESHAP Activity Permit are *not required*.

If the facility *is* regulated by the Asbestos NESHAP *and* demolition will occur, then a Notification and Asbestos NESHAP Activity Permit *are required*.

If the facility *is* regulated by the Asbestos NESHAP *and* renovation that includes stripping or removal of threshold amounts of RACM will occur, then a Notification and Asbestos NESHAP Activity Permit *are required*.
