

NOTICE OF WATERLINE CONSTRUCTION

PIMA MINE ROAD – EAST OF SANTA CRUZ RIVER TO INTERSTATE 19

JANUARY 2, 2019 – JUNE 30, 2019

On Wednesday, January 2, 2019, construction is expected to commence on two 36-inch diameter waterlines that could impact travel on Pima Mine Road. It is expected that this work will be completed by June 30, 2019. The waterlines are segments of two water delivery systems that will deliver Central Arizona Project water to the Sahuarita/Green Valley area.

The waterlines will be installed in an east to west direction in three phases in Pima Mine Road, starting just east of the Santa Cruz River. Two lanes of traffic will be open and maintained at all times. Please use caution when travelling through the construction zone.

Any questions concerning the project should be directed to Raul Piña, Construction Manager, JPAR LLC at raul.pina@cpeconsultants.com and (520) 545-7001. Updated project construction information will be available on the Town of Sahuarita's Public Works Department Roadway Projects webpage at www.sahuaritaaz.gov/230/public-works.

Thank you for your understanding and cooperation during this waterline construction project which will deliver important water resources to our area.
